

SMg120-130

SMg scrubbing machine.

It is robust, powerful and suitable for industrial environments cleaning.

# SMg120-130

## SMg scrubbing machine

**It is suitable for heavy dirt cleaning  
of industrial environments up to 20,000 sq. m.**

SMg floor scrubbers represent Fimap top of the range of cleaning machines. They are available in the scrubbing version with 120 cm working width (SMg120) and in the scrubbing-sweeping version with 130 cm working width (SMg130).

SMg120

SMg130

Large solution tank  
capacity

275 l

## Available equipment:

SMg scrubbing machines include two versions: Base version and Full Optionals version

STANDARD EQUIPMENT	SMg120 – SMg130 (Base)	SMg120 – SMg130
<b>Water and detergent management</b>		
FSS (FimapSolutionSaver)	-	•
FWF (FimapWaterFlow)	• (only scrubbing version)	• (only scrubbing version)
Water flow reduction on bends**	•	•
Eco ON/OFF System*	•	•
FFF (FimapFastFill)	-	•
Water level indicator	•	•
Detergent level indicator	-	•
<b>Scrubbing performances</b>		
Brushes pressure regulation	•	•
Speed regulation	•	•
Double vacuum motor	•	•
Brush head lateral movement	-	• (only scrubbing version)
Second side brush	-	optional (only sweeping version)
<b>Safety</b>		
Speed reduction on bends**	•	•
Front antiskid motorwheel	•	•
Antiskid rear wheels	•	•
Hydraulic brakes	•	•
Blinking light	optional	•
Safety belts	optional	•
Hoverhead guard	optional	optional
Headlights	-	•
<b>Comfort</b>		
Comfort Drive System***	-	•
FNC (FimapNoiseCanceling)	•	•
Tanks can be sanitised completely	•	•
Recovery tank rotating system	-	•
Squeegee rotating system	•	•

\* Eco ON/OFF system: it automatically stops the flow of water when the machine is not working or is blocked by the operator.

\*\* Device for speed and water quantity reduction on bends to assure always maximum drive safety and excellent drying.

\*\*\* Comfort Drive System: the operator can adjust the seat to suit his particular driving needs.

Work with SMg incomparable performances!

## It is available also in sweeping version for solid wastes collection

The scrubbing-sweeping version with stainless steel brush head SMg130 is equipped with side brushes and two cylindrical brushes thanks to which it is possible to collect even small solid debris and convey them into the debris hopper. The hopper can be easily emptied at the end of cleaning operations, taking it out from the right side.

### SMg130

Work with SMg great autonomy!

Up to 4 hours

The installation of all innovative elements such as the new generation electronically controlled motorwheel and the new Eco ON/OFF system that stops the brushes and water flow when the machine is not working, **HAVE MADE IT POSSIBLE TO REDUCE THE CONSUMPTION OF ENERGY UP TO 30%, INCREASING THE MACHINE PRODUCTIVITY**

# Work with SMg technologies!

## PRODUCTIVITY

With the new Fimap dosing system **FSS (FimapSolutionSaver)**, during normal maintenance cleaning operations, surfaces can be scrubbed with water and detergent **SAVING up to 50%**.

**This assures a high increase of machine productivity, scrubbing with the same water quantity the double surface.**

## SAFETY

The detergent distribution is made from a 20 litres tank. The operator can easily fill up with detergent through the proper filling up opening, without coming into contact with the chemical product, working as a consequence in complete safety.

## ECOLOGY

The possibility to dose the right quantity of detergent according to the type of dirt to remove, helps to obtain a detergent saving up to 50%.

**AND WHAT IS THE RESULT?**

**A PERFECT CLEANING WITH A CONSIDERABLE REDUCTION OF THE ENVIRONMENTAL IMPACT.**

## PRODUCTIVITY

The new **FWF (FimapWaterFlow)** system always guarantees a uniform distribution of the detergent solution on both brushes, assuring a homogeneous cleaning result just after one pass of the machine.

**AND WHAT IS THE ADVANTAGE? MORE CLEANING WITH LESS DETERGENT!**

Thanks to the FWF technology and to the possibility to adjust brushes pressure and working speed, an excellent cleaning performance after the first pass is guaranteed, so that no second pass is required.

**AND WHAT IS THE BENEFIT? A time SAVING up to 50%.**

## SAFETY

By eliminating acoustic stress, the operator can work in complete safety, being able to dedicate all his attention to what he is doing preserving his health.

## COMFORT

SMg silentness allows to work **NOT ONLY IN INDUSTRIAL ENVIRONMENTS**, such as big stores, but also in highly noise-sensitive environments such as airports **WITHOUT DISTURBING THE ENVIRONMENT.**

## Work with SMg user-friendliness!

1 Set the working speed

2 Set the working program

3 Adjust cleaning solution and brush head pressure according to the type of dirt to remove

... AND START TO WORK!

## Work with SMg power!

SMg are equipped with new generation motorwheel that allows to clean at high speed and in total safety thanks to antiskid wheel

The double vacuum motor ensures excellent cleaning results also on uneven surfaces. Filters proper cleaning keeps constant vacuum performances

The possibility to get on/off from both sides ensures the maximum accessibility to driving controls and increases the operator safety

The large diameter drain hoses have been placed in a position that allows to quickly and completely empty both the recovery and solution tank

Recovery tank can be electrically rotated

FFF, FimapFastFill to quickly fill the solution tank

Safety belt kit

Reduced squeegee dimensions, as wide as the machine

External socket for battery charging

The squeegee can be rotated to facilitate rubber blades cleaning

Low consumption led headlights

The brush head can laterally come out up to 15 cm to efficiently clean along walls

Ask your dealer Fimap Service Packs:  
no more unexpected costs!

Fimap can offer the ideal solution according to different budgets and needs, choosing one of the three solutions: LIGHT Service Pack covering the ordinary maintenance, SMART Service Pack for ordinary maintenance and the replacement of wear materials, or FULL Service Pack which, besides the services of the first two packs, includes also the replacement of consumables.

Choosing one of Fimap Service Packs you will benefit of:

- Peace of mind for your purchase regularly controlled by qualified technicians
- No more added costs to pay
- Performances guaranteed over time
- Longer product life

For further details please refer to general terms and conditions available at [www.fimap.com](http://www.fimap.com) inside "Fimap Service Pack" of "Services" section
